

# FSV-Dictionary for translations

The in January 2021 newly published **Dictionary Transportation & Infrastructure German – English, English – German** is containing more than 6.000 term pairs for translation between both languages. Language is a fundamental and connecting element in our society. We expect helping reducing misunderstanding of translation of technical terms in the fields of transportation and infrastructure with this book. Only who understands each other finds each other.

## Key data:

- **Translated terms: >6,000**
- **References of the translations: >500**
- **Types of references:**
  - ✓ Guidelines for Planning, Construction and Maintenance of Roads (RVS)
  - ✓ ÖNORMEN/European Norms (ÖNORM EN)
  - ✓ DIN/European Norms (DIN EN)
  - ✓ ISO-Norms (ÖNORM EN ISO, DIN EN ISO or ÖNORM ISO)
  - ✓ National Laws/Governmental Guidelines
- **Range of topics:**
  - ✓ Traffic and transport planning, traffic and environment, contracts and tendering, road, bridge and tunnel constructions, quality management in planning and implementation, railway transportation

## Areas of application:

The FSV-dictionary has its use in following fields of the transportation sector:
